

# TAILORS MARK

## EXISTING TROUSERS MEASUREMENT GUIDE

Please write your measurements here in cm's or inches and refer to this card when ordering online.

Once measurements have been entered online they will be saved for future orders.

### WAISTLINE

Ensure all buttons / zips are done up. Measure the circumference of the waistline.  
TIP: It may be easier to wear the pants whilst taking this measurement.

### THIGH

Lay the trousers side down and lift the leg so that crutch seam is visible. Measure across the thigh; Do NOT measure the circumference of the thigh.

### CALF

Measure across the trouser leg at calf height; Do NOT measure the circumference of the calf.

### CUFF

Lay the trouser cuff out flat and measure from one side to the other; Do NOT measure the circumference of the cuff.

### LENGTH

Lay the trousers out flat faced up. Measure from the top of the waistline down to the end of the trousers.

### SEAT

Measure across the front of the trousers at the seats widest point; this is usually along the bottom of the zip. Do NOT measure the circumference of the seat.

### CROTCH FRONT

Lay the trousers face up and pull the crotch seam so that it is visible. Measure from the top of the waistline to the crotch seam.

### CROTCH BACK

Lay the trousers face down and pull the crotch seam so that it is visible. Measure from the top of the waistline to the crotch seam.
